## **8.0 Mobility Recovery Focus and RFP/RTA's Regional Recovery Planning**

The primary objective of this project is to develop a mobility strategy and action plan to aid a more equitable recovery from the COVID-19 crisis in northeastern Illinois. This work will mitigate a likely rebound in congestion, sustain the transit system, and increase the resiliency of the region's multimodal transportation system.

RTA staff will provide an overview of scenario planning work to frame a discussion of how to prepare the region's transit systems to successfully navigate the next 1-2 years of uncertainty brought about by impacts from COVID-19. The purpose of this activity is to think through a range of different possibilities, engage stakeholders, and develop strategies to pursue the vision and goals of *Invest in Transit* in what may be a very different environment. Additionally, a survey was created to gather additional feedback and is [available online now](#).
